

Leadville Natural Gas System Renewal Project

Natural gas construction work to begin soon

Beginning in mid-May, Xcel Energy will begin a 5-year project to renew the natural gas system in Leadville. This project is part of Xcel Energy's commitment to system revitalization and will ensure continued reliable and safe natural gas service.

Project schedule

Work will occur in five different phases. In 2019, the first phase, revitalization efforts will focus on the north end of the city, primarily between Mt. Massive Drive on the west, Mountain View Drive on the north, North Poplar Street on the east, and 11th Street on the south. Homes and business in that area will soon be receiving additional information.

For general information about our gas service replacement program, please visit www.xcelenergy.com/naturalgasprojects and select "Residential Gas Service Replacement Program." For specific question please email infocolorado@xcelenergy.com.
