

Lake County Government in **Leadville, CO** is seeking a fulltime **Maintenance Technician** for our **Public Works** Department. This entry-level position is a member of a team that oversees the maintenance and repair of all buildings, facilities, grounds, and parks of Lake County.

Essential Duties include:

- Assist in fabricating and constructing park and facilities repairs which may include park shelters, picnic tables, park signs, parking areas, small buildings, remodeling, facilities, painting, and other similar projects.
- Assist in facility and office repairs and maintenance requests which may include moving of office furniture, furniture assembly or repair, lightbulb & smoke alarm battery replacement.
- Routine servicing of swimming pool mechanics and repairs as needed
- Seasonal snow removal from County facility sidewalks
- Operates a variety of heavy and light equipment including mowers, chainsaws, tractors, backhoes, and trash compactors, small snowplows
- Other routine preventative servicing to ensure equipment and facilities maintain good working order.
- Other small 'handyman' construction and maintenance projects as they arise

Qualifications Include:

- High School diploma or GED required supplemented by specialized training in equipment maintenance, park facilities, horticulture, or a related field required.
- One (1) year of experience in a directly related field required.
- Proven experience in the methods, techniques, hand & power tools, and materials used in park maintenance, facility repair and construction, and related vehicle and equipment repair
- Strong general knowledge of basic electrical wiring, plumbing, masonry, carpentry, welding, small engine, and vehicle mechanics
- Experience in landscaping practices including lawn, tree, and shrub care.
- Knowledge of swimming pool mechanics and preventative maintenance
- Basic HVAC knowledge
- Ability to lift 50lbs without assistance & more than 50lbs with assistance

This position requires significant periods of exposure to weather, including extreme heat and cold, and is in proximity to moving mechanical and electrical parts, working near toxic or caustic chemicals, exposure to dust, fumes and gases.
